JANUARY MEETING ----- RESCHEDULED -----

Date: Thursday, January 25, 1962

Place: Frye Institute, 6th and Cherry Streets, take elevator to third floor and Frye Camera Club Room.

Time: 7:45 P. M.

The regular January meeting having been postponed due to bad weather and with so many requests to hold the shooting session, we have rescheduled this meeting for Thursday evening, January 25, 1962 - 7:45 P. M.

PORTRAITS WITH CLUB MEMBERS AS MODELS

"I TAKE YOU AND YOU TAKE ME"

This is the theme of the January meeting. However, the photographer courtesy rule will be followed. Namely, "No portrait of a club member is to be used without his or her permission". Come dressed in your most comfortable, unusual, colorful clothes. We suggest each member wear one or more colorful item, such as unusual hat, tie, dress, bonnet, shirt, blouse, gloves, etc. New or old beat up garments make unusual portraits.

Bring your camera, tripod, flash bulbs or electric flash. If you have more than one camera, bring both loaded with different type film. The Camera Club has arranged for use of the Frye Institute props, flood and spot lights if you wish to use them. The club will have on display eighteen prints from Ansco's gallery of outstanding portraits. These are all high quality photography made by nationally known portrait photographers. Many tips can be picked up from these prints.

Remember: This will be an opportunity to get pictures for the "Portraits and Genre" Assignment for submission at the February Meeting.

COMING ATTRACTIONS:

February 8, again brings us the illustrious Dr. Willard Steele and his South American Travels. March will bring Len Thurston, F. P. S. A., with his National Lecture - on Nature photography.

DON'T FORGET -- THIS MEETING IS AT FRYE INSTITUTE
