

PHOTOGRAPHIC SOCIETY OF CHATTANOOGA

Vol. XII

No. 10

JUNE MEETING

Place: Northside Branch, Hamilton National Bank

Date: June 14, 1962

Time: 7:45 P.M.

DUAL PROGRAM - Night Photography
and
National Aeronautic Color Movie on "Mastery of Space".

The main feature of this June meeting will be the showing of 35mm color slides with professional recorded commentary on color "Photography at Night". Illustrations will show how many subjects are better photographed at night with many suggestions on various tools, techniques and places where photography after dark is an interesting art.

Time permitting we will also show a recently released color movie on "Our Man in Space Program" (Glenn's flight and earlier ones), this is a National Space Administration film release.

Don't forget to bring your entries for the June Assignment Contest. The subject is "Flowers, Shrubs and Trees." Let's give Ray Parks and Fred Hines some competition.

A Reminder - The July Meeting will be our Annual Picnic and our club member Stagmaier will have a premier showing of his Spain and Portugal slides -- Keep this date (July 11) open.
