

The April meeting of the PSC will be held Thursday, April 9, 1964 at the Northside Branch, Hamilton National Bank.

Mr. Edward W. Payne (by means of 35mm slides) will build a highway, starting at the coast of Peru, across the arid coastal plain, through the rugged Andes Mountains, into the tropical rain forests of the Amazon. At the times these pictures were taken, Mr. Payne was an official of the World Bank in an engineering capacity.

Time permitting, a short 8mm movie will be shown. This movie is the combined efforts of several photographer-splunkers and will illustrate the use of battery operated lighting equipment for cave photography.

You will find both features informative and interesting.
