

The February meeting of the PSC will be held Thursday, February 9, 1967 at the Northside Branch, Hamilton National Bank at 7:45 P.M.

This will be Triple barrel program consisting of:

1. TOM ANDERSON presenting another feature by the Technical Committee. This will be a short talk on the various kinds of lenses and their comparison with each other. For instance, how much a 135mm, f2.8 lens differs in size and weight from a 100mm, f2.8 or a 100mm, f4.5 lens. This will not be "fancy high-brow" discourse, but rather practical tips on how to make an intelligent, economical selection of the best lens for purpose desires.
2. DON ALBRITTON will conduct the feature "What's Wrong With My Slide" Everybody should bring in a slide for the club to critically look over in review. We'll learn much not only by having our photography judged before our very eyes, but also, and probably more so, in judging the others.
3. FRED HINES has arranged for a 28 minute sound movie produced by the American Optical Company entitled, "Nature Remains". Real close-up of birds, animals, trees, ants, and flowers.

The shooting session held at the meeting last month was a very pleasant exercise in cameraship. PAULA and little Stephanie SKRIVAN pretty much stole the show as being two of our most appealing models... Their cooperation and patience are certainly appreciated.

According to GENE HAYES, Contest Committee Chairman.. the next contest entries are due at the March meeting. The contest is entitled, "The Eyes Have It". GENE has in mind particularly the seeing kind. But BILL DUNCAN is right when he says that the eye of a needle or a potato is also good subject material for this contest. Due in March.

H. J. TOWNSEND, House Committee Chairman, is looking for the Club's slide projector. Anyone with knowledge concerning its whereabouts please hurry and tell HARRY.

We are most pleased to welcome another new member -

Mrs. FRANK S. SHIPP (DELLA)

Remember - Bring a slide or two to comment on - on Thursday, February 9th.
